

## Technical Execution Partner for Global System Integrators

### OVERVIEW

InstallCrew is a specialized technical partner providing high-scale, certified manpower for the intralogistics and automation sectors. We transform complex engineering designs into fully operational systems.

### CORE COMPETENCIES

#### Mechanical Installation

Precision assembly of high-speed sorters, conveyor systems, AS/RS, and heavy-duty mezzanines.

#### Electrical & Control (SEP)

Full electrical integration, control cabinet wiring, fieldbus installations, and sensor calibration.

#### High-Altitude & Rigging

Certified rope access and safety-oriented rigging for high-bay warehouse environments.

#### Heavy Machinery (UDT)

Expert telehandler and forklift operators ready for immediate site deployment.
